The Web Index is the world's first multi-dimensional measure of the Web's use, utility and impact on people and nations. Covering developed and developing countries, the Index incorporates indicators that assess the political, economic and social impact of the Web, as well as indicators of Web connectivity and infrastructure.

The Web Index data source providers are: Ethnologue, Freedom House, The International Energy Agency, International Telecommunication Union, United Nations, Reporters Without Borders, The CIA Factbook, Wikimedia Foundation, World Wide Web Foundation, The World Bank, World Economic Forum (see also: <http://thewebindex.org/data/all/sources/>).
